Dear Mr. Lally:

You have requested a Material Safety Data Sheet on RUST-BAN 632 and UNIVIS PJ-42. We have not manufactured these products for several years, and, accordingly, do not have a current MSDS available.

In light of the age of these products and the unavailability of a current MSDS, we are not able to provide you with health and safety information which could be assured to be accurate and applicable.

We appreciate your continuing interest in our products and regret that we cannot assist you in this request. Please contact your local Exxon sales representative if further assistance is required.

Sincerely yours,

Lawrence N. Curcio, Ph.D.
